

What is our shared purpose as humans?

To enjoy God in all of God's glory
to care for all of creation
to spread God's love in all the nations of all the world.

The train of history started in the Garden of Eden at creation. Humans—men and women alike—were given the purposes to enjoy God, work together in relationship, to care for all creation, and to multiply God's blessing in others by lifting God up.

What does that look like to you?

How did we get “off track”?

The train moved forward and humans made rebellious choices to move away from their purpose. Everything else in Scripture is God's attempt to get us back on track, back to our purpose.

What's the destination?

The Kingdom of God, where everything is completed and fixed and made perfect according to God's design.

Meanwhile, we here on the train are getting ready by living our purpose as individuals—growing, sharing with others, and enjoying God's presence on the train.
